RE: Historic and Prehistoric Properties Clearance
Permit # D-1159 IBR: 4.3 acre

Dear Applicant:

Your proposed permit area has been given a historic and prehistoric properties clearance by the Division of Mineral Resources Management. This clearance is based on the following reasons: The proposed 4.3 acre Incidental Boundary Revision (IBR) is archaeologically **not** sensitive due to 100% affectment from previous mining.

Therefore no further coordination on historic and prehistoric properties with the Division will be necessary for this project unless the project size increases or additional information is received by the Division on the presence of historic or prehistoric properties in the project area.

If you have any questions regarding this matter, please contact me at 614-265-6641.

Sincerely,

A handwritten signature in cursive script, reading "Jeffrey C. Reichwein", is written over the typed name.
